

Freelance Web Developer

BCF is looking for an experienced Freelance Front-end and Back-end Developer to assist our team with ongoing client projects. To start, this would be a position with somewhat sporadic workflow that we would look to streamline over time. We prefer this individual be able to work in our Virginia Beach located office, however we would be open to remote work in certain circumstances.

We are looking for an individual with a strong base of standard and emerging front-end and back-end web technology stacks and languages and sound experience with object oriented programming and source control. Specific knowledge and skills required listed below:

CMS Experience:

- Drupal (this is a must!) - Advanced knowledge preferred
- Wordpress

Technical Skills (in no particular order):

- HTML5/CSS3
- JavaScript/jQuery - Advanced knowledge preferred
- CSS and JavaScript Frameworks - Bootstrap 3
- CSS Preprocessor - Sass, and LESS
- Responsive Design
- Knowledge of Testing/Debugging
- Knowledge Browser Developer Tools
- Extensive experience with cross-browser compatibility
- PHP/MySql - Advanced knowledge preferred
- Experience integrating with 3rd party APIs
- HTML5 Digital Banners
- Photoshop familiarity

Please email Cover Letter, Resume and recent work to jstratton@bcfagency.com. Please include hourly rate with your response. No phone calls please.

BCF is an Equal Opportunity Employer and Drug-Free Workplace.
